

Maths and the Dyslexic Learner

A course for Teachers, Teaching Assistants/LSAs and Parents

This ten-week course is designed to give many of the practical skills and techniques needed to help dyslexic students who have difficulty with some aspects of maths. It includes:

Identifying what difficulties a dyslexic may have with maths

Number and concept of number

Place value

Tricky times tables

Multi-sensory methods

The importance of concrete materials

This course is suitable for Teachers, TAs/LSAs and those working in schools. It is also suitable for Parents who have attended our 'Understanding Dyslexia' course designed for parents of dyslexic children.
